Scene Change

01 Fold the sleeve

MATERIALS

160-200 gsm cardstock, ruler, craft knife and tape.

01 Cut

Trim the sleeve and remove the white window.

02 Score and fold

Score all four dashed lines. Fold the front over the back with the printed side facing out. Leave both ends open.

03 Close the top

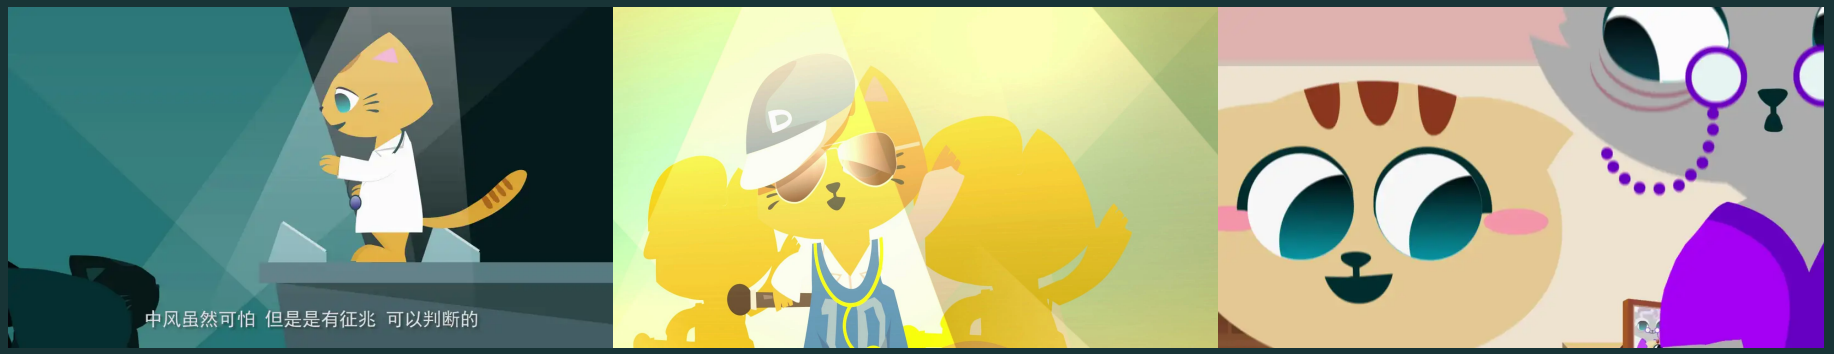

Tape the yellow tab behind the front's top edge.
Keep adhesive between the paper layers.

50 mm print check

Scene Change

02 Cut the strip and change the scene

PULL

PULL

01 Stage

02 Spotlight

03 Close-up

Keep all three frames on a single strip.

Slide the strip through either open end with the pictures facing the window. Centre each image in turn. The frame stays fixed; only the cut changes.
